# Mipa 2K-Clearcoat C 123

Technical data sheet

Thinner

1,5 - 2

1,2 - 1,3

#### Intended use

Mipa 2K acrylic clearcoat C 123 with excellent filling properties and high UV protection does not require any thinner addition to be applied. High resistance to weather, environmental influences and durable gloss retension especially on solvent based basecoats already after one or 1,5 spray passes, which leads to material and time savings.

Spreading rate: Spreading rate: 244 - 325 sq.ft/gal by 1 mil.

### General informations

Colour colorless
