## Mipa PUR HS 2K-PUR-Acrylic-Paint

Technical data sheet

#### Intended use

Mipa PUR HS is a 2K PUR-acrylic, weather- and UV- resistant High-Solid car paint for VOC-compliant partial or complete paintworks on trucks, busses and commercial vehicles. All toners are free from lead pigments. It provides particularly high opacity, spreading rate, gloss retention and high resistance to chemical and mechanical strain.

Spreading rate: 300 - 400 sq ft./gal. (6 - 8 m²/l ) by 2 mil DFT

#### General informations

Colour Mipa Color System II + System III solid Mipa Mix Basic, Mipa Mix 5.0

Mipa Mix Elite

Mixing ratio

Always check local VOC laws to ensure that the use of Mipa products is compliant in your area.

Processing conditions:from 50 °F (10 °C) and up to 80 % relative air humidity.<br/>Ensure an adequate supply and exhaust air ventilation.<br/>Acrylic-based products do not cure perfectly at a temperature of below 50 °F.General informations:To avoid too thick layers (very high solids content as HS quality) strictly observe the<br/>recommended number of coats. Always check colour shade before application after<br/>having added the hardener. The polishability of some colours may be limited due to

Tools should be cleaned immediately after use.

Safety aspect:

the system.

For professional use only. Not for sale to or use by the general public. Before opening the packages be sure you understand the warning Messages on the Labels and Safety Data Sheets of all components since the mixture will have the hazards of all of its parts. The manufacturer recommends the use of an air supplied Respirator when exposed to vapors or spray mist.
