2 Hazard(s) identification

· Classification of the substance or mixture

GHS02 Flame

Flammable Liquids 3

GHS08 Health hazard

Exposure 2

Specific Target Organ Toxicity - Repeated H373 May cause damage to organs through prolonged or repeated exposure.

H226 Flammable liquid and vapor.

GHS07

Skin Irritation 2 H315 Causes skin irritation. Eye Irritation 2A H319 Causes serious eye irritation. Specific Target Organ Toxicity - Single Exposure 3 H336 May cause drowsiness or dizziness.

· Label elements

· GHS label elements

The product is classified and labeled according to the Globally Harmonized System (GHS). · Hazard pictograms

· Signal word Warning

· Hazard-determining components of labeling: n-Butyl acetate Ethylbenzene Hydrocarbons, C9, aromatics

Safety Data Sheet acc. to OSHA HCS

3 Composition/information on ingredients

· Chemical characterization: Mixtures

• **Description:** Mixture of the substances listed below with nonhazardous additions.

 Dangerous 	components:	
123-86-4	n-Butyl acetate	50-100%
1330-20-7	Xylene	5-<10%
78-93-3	Methyl ethyl ketone	2.5-<10%
64742-95-6	Hydrocarbons, C9, aromatics	5-<10%
108-65-6	2-Methoxy-1-methylethyl acetate	2.5-<10%
100-41-4	Ethylbenzene	<2.5%
85711-46-2	Fatty acids, C14-18 and C16-18-unsatd., maleated	≥0.1-<1%

4 First-aid measures

· Description of first aid measures

• General information: Immediately remove any clothing soiled by the product.

• After inhalation: Supply fresh air; consult doctor in case of complaints.

After skin contact: Immediately rinse with water.

- · After eye contact:
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: If symptoms persist consult doctor.

Safety Data Sheet

acc. to OSHA HCS

- Information for doctor:
- *Most important symptoms and effects, both acute and delayed* No further relevant information available.
- *Indication of any immediate medical attention and special treatment needed* No further relevant information available.

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.

6 Accidental release measures

• Personal precautions, protective equipment and emergency procedures Mount respiratory protective device.

Wear protective equipment. Keep unprotected persons away.

- · Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.
- · Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.
- · Protective Action Criteria for Chemicals

7 Handling and storage

· Handling:

- · Precautions for safe handling
- Use only in well ventilated areas.

Ensure good ventilation/exhaustion at the workplace.

- Prevent formation of aerosols.
- Information about protection against explosions and fires: Keep ignition sources away - Do not smoke.
 Protect against electrostatic charges.
 Keep respiratory protective device available.

· Conditions for safe storage, including any incompatibilities

· Storage:

- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions: Keep receptacle tightly sealed.
- · Storage class: 3
- · Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

- · Control parameters
- Components with limit values that require monitoring at the workplace:

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

Trade name: Mipa BC 2-Schicht-Basislack

(Contd. of page 5)

Recommended thickness of the material: \geq 0.7 mm The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- Breakthrough time of glove material Value for the permeation: Level < 1
- · Eye protection:

Tightly sealed goggles
